

THE GREAT MAP OF THE MODERN FOURTH WAY

Waking up in ordinary life — the whole journey in one figure

Every concept, law, practice, and process of the book — and nothing more

IN THE BEGINNING

THIS — the one awareness, prior to every story. What you are was never born into the machine; it only fell asleep inside one.

The descent is not a mistake. Every complete map draws the same figure — down, a bottom, a turn, up — and the sleep is only the finished first half.

THE ENNEAGRAM — the two laws in one figure;
the flat circle is the top-down view of a spiral: do arrives one level up

THE RETURN — AND THE GIFT

At the edge of the map, effort meets its limit and the doer is seen through. Who am I? — the seeker turns, and finds only **THIS**. What climbed was awareness all along; there was never anywhere to go.

Yet the journey was not for nothing: a crystallized being comes back — experience made permanent, awareness awake inside a life.

do — one level up

THE TURN — Part III: the method, hour by hour

THE DESCENT — Part I: the situation

IDENTIFICATION — attention flows out and is captured

THE DREAM — waking sleep, eyes open

the crowd CHURNS — many I's, each calling itself "you"

THE FOUR WAYS

The fakir works the body; the monk, the heart; the yogi, the mind. Methods, not religions — each demands leaving life, develops one center, and stays fragile.

THE FOURTH WAY works all three centers at once, begins from understanding, and is built **INSIDE** life — so its results survive contact with life.

*It is the way of the **SLY MAN** — who knows what to take, and how, without leaving his kitchen.*

BELIEVE NOTHING. VERIFY EVERYTHING.

HOW THE TURN FINDS YOU

A influences arise inside ordinary life. B influences carry meaning **IN** from outside it. C influences pass only person to person.

Something in you collects the B's — the **MAGNETIC CENTER** — until one day it steers you to a book, a person, a way.

That is how this map found you.

THE LAW OF THREE

Nothing happens without a third force. Two forces alone are a stalemate — and **AWARENESS** is the third force you carry into any deadlock you own. Six orders of triad govern all doing.

THE ENGINE — Part V: transformation

FIRST FOOD — what you eat

audit lightly

SECOND FOOD — the air

notice, no more

THIRD FOOD — IMPRESSIONS

the food nobody audits; the real assignment

An impression received asleep goes nowhere. Received in **PRESENCE** — at the exact point of entry — it transforms: the **FIRST CONSCIOUS SHOCK**. Presence is metabolism.

The yield: the machine's finest fuel — the same premium energy the sex center runs on — the fuel of everything higher.

*So keep an **IMPRESSION DIET**; what enters the eyes and ears is what you become.*

THE FOUR STATES

4 · objective consciousness

3 · self-consciousness

2 · waking sleep — ordinary life

1 · sleep in bed

the turn does not happen by itself — you are the shock

DIVIDED ATTENTION — the world and yourself, both at once

THE BODY — posture, tension, breath: the honest anchor

SELF-OBSERVATION — observe before you change anything

SELF-REMEMBERING — attention flowing two ways at once

ten honest seconds of PRESENCE — the machine cannot do it; you can

ALARM CLOCKS — catch yourself asleep; change them often

NON-EXPRESSION of negative emotion — decline to feed the leak

THE STOP — the whole machine halted mid-gesture, and seen

THE LAW OF OCTAVES

Every process stalls at two **INTERVALS**; a **SHOCK** — force from outside the line — carries it across. The first arrives at the gap; the second must be placed in advance. Nothing finishes by momentum.

why everything that starts, stops — and how to finish anyway

LIVING IT — Part VI: nothing wasted

Friction is the gymnasium: the person who irritates you is the equipment. Met with presence, difficulty becomes **CONSCIOUS, INTENTIONAL SUFFERING** — payment, not loss.

THE SECOND CONSCIOUS SHOCK: negative emotion caught at the instant of arising and transformed — neither expressed nor suppressed.

INTERNAL CONSIDERING (keeping accounts of how you are treated) is replaced by **EXTERNAL CONSIDERING** — real attention to the other.

*And keep the **AIM** warm — years, not weekends.*

THE ASCENT — crystallization, rung by rung

MAN 7
CRYSTALLIZED — one will; what is built cannot be taken

MAN 6
every connection live — the threshold

MAN 5
unity — the permanent I

MAN 4
the aim; the deputy steward holds the empty seat

THE MACHINE — Part II: ordinary life at the bottom of the arc

TWO HIGHER CENTERS
broadcasting — nothing receives

wrong work — centers steal each other's fuel

each center has moving, emotional, and intellectual **PARTS** — attention's three depths
CENTER OF GRAVITY makes the three types: Man 1 (moving) · Man 2 (feeling) · Man 3 (thinking) — three flavors of one sleep

the **FORMATORY APPARATUS** answers in slogans while you are elsewhere;
the **CHIEF FEATURE** is the axle the whole act turns on

*— and yet: under the buffers, **CONSCIENCE** — the felt truth of the whole being at once — never stopped waiting —*

many I's — the churn

carriage · horse · driver — and the master's seat, **EMPTY**
ESSENCE (small, real) wears a **PERSONALITY** (large, borrowed)
IDENTIFICATION is the glue; SLEEP is the state; the DREAM is the life

EVERY CHAPTER ENDS IN PRACTICE — first day · first week · first month · first year — Chapter 17 gathers **THE WORK**'s complete toolkit

the **SECOND LINE OF WORK**: with and for others (work groups, Appendix A) — knowledge and being must grow together into **UNDERSTANDING**

read it three times: once as a story, once as a study, once as a practice

We are THIS.

Welcome to the path home. You're on your way.
